

DISCARDING USED TIRES IS FLAT-OUT EASY

We will help you dispose of used tires the right way with a free program for Fort Lauderdale residents served by Republic Services!

HERE'S HOW:

- 1.** On garbage collection days, place up to two passenger or light truck tires (up to 20 inch), with or without rims, on the ground next to your garbage bin before 7:00 a.m. Do not place on or in your cart.
- 2.** When the garbage collection driver spots your tires, a work order will be created and your tires will be collected within 24 hours.
- 3.** A driver in a pick-up truck will remove your tires for environmentally responsible disposal.
- 4.** As an alternative, tire collection services are available by calling our 24-hour Customer Service Center at (954) 828-8000 or by submitting a service request on the City's Lauderserv app at fortlauderdale.gov/lauderserv.

This service is available for up to four tires per household per year.

GREEN YOUR ROUTINE WITH RESPONSIBLE TIRE DISPOSAL

Used tires present environmental, health and safety hazards.

- Millions of retired tires are needlessly comingled with garbage and then hauled to expensive disposal facilities.
- In neighborhoods, stagnating rainwater accumulates in old tires creating a welcoming environment for disease-transmitting mosquitoes and other pests.
- When tires catch fire, they are highly toxic and very difficult to extinguish.

GIVE TIRES A NEW LIFE!

Reuse and recycling of used tires provides environmental and economic benefits. From football fields and playground safety mats to rubberized asphalt and tire derived fuel, old tires are valuable for reuse.
